

Directors' Report

The Board of Directors of CARING HANDS AFRICA, INC are pleased to present the Annual Report of the organization for the year ended 31 December 2020 along with the financial statements.

As you read through this annual report, you will be able to see the highlights of what has been accomplished these past years. You will also see that we are dedicated to financial transparency and sound stewardship of the resources which are entrusted to our care.

Our History

We were incorporated as CARING HANDS AFRICA, INC to operate exclusively for charitable, scientific or educational purposes. In particular the purposes of the organization shall be to bring medical care to indigenous parts of Africa with no healthcare provider, through collaborative partnerships with health missionaries, nurses, clinics, hospitals, and doctors; and to operate other services and to do all things necessary to carry out such object as shall be permitted by law.

Our Mission / Vision / Purpose

The biggest part of our program spending will be allocated to our health, humanitarian and educational work. Access to medical and healthcare is a vital aspect of quality health. Many people in indigenous parts of Africa do not have the medical and health care they need either because they are too expensive or simply because they are not available locally. We have been working to improve access to medical and health care facilities for many years.

Our Team

None of this would have been possible without our dedicated partners, donors, staffs and volunteers who worked tirelessly to enable us to deliver needed education, medical and healthcare supports to some of the world's most vulnerable people when they needed it the most. Our team consists of 4 doctors, 16 nurses, 86 non-medical volunteers and 1 lawyer.

Our Core Performance reviews

We, as a group, are in verities of services to local communities. We are growing in numbers and in quality of our services. The Board ensures that the organization adopts the best practices of organizational affairs.

Medical and Health Care

In 2019, 89 patients were treated alongside 112 families. 6 kids still receiving medical treatment under our health programs in Africa due to chronic conditions such as HIV and Sickle Cell. Up till December 2020, 980 patients have been treated against indigenous diseases. 37 elderly geriatric patients were treated under our programs and supported with wheelchairs and walkers. 5,000 surgical gloves, 4,000 gowns and 10,000 masks were distributed to support rural clinics in Cameroon with isolation gear in pandemic.

Education

In 2019, 538 kids received back to school items. 20 orphans receiving academic sponsorship (tuitions and books) in Africa each year. In 2020, 708 elementary school kids and 29 middle and high school children received back to school items from us. 25 undeserved children are registered with our education for kids' program and served with provided back to school items and sponsored school fees.

We would like to convey our sincere appreciation to our colleagues on the Board for their valuable guidance and support and to all our team for their tireless efforts, dedication and commitment and, our donors for their trust in our organization. On behalf of the Board, we also wish to extend our gratitude to our donors for their relentless support and trust placed on us.

We look forward to continuing to deliver results in the coming years.
